ABOUT US

Advance Apparel is a London-based B2B apparel wholesaler which specialises in a variety of divisions, such as, Promotional Wear, Corporate Wear, Licensed Merchandise as well as catering for Bespoke requirements. Advance Apparel is currently the sole license holder for Cambridge University Merchandise as well as a license holder for Oxford University Merchandise.

Here at Advance Apparel, all our garments are made in our very own factory which has been audited and certified by WRAP, SEDEX and ISO 9001.

This can assure you that we unequivocally focus on delivering a high quality product. We have strict quality assurance and quality control measures in place to again establish that our top priority is delivering a high quality product every time regardless of order quantity.

Our 70,000 sq.ft factory has the capacity to produce on average 100,000 - 130,000 units each month. It is also important that you know that only the best and highest quality yarn and technology is used during the production process.

As aforementioned, our own factory has been awarded for our quality management, responsible production and responsible supply chain which highlights that we will never compromise on quality. And for this very reason, over the last 17 years, Advance Apparel has grown rapidly in the Promotional Wear industry and become the top choice for the UK's leading universities for Official Merchandise.

That being said, we believe that we have something of great value to offer with our garments through which there is a great opportunity for long and prosperous growth for the both of us.

If you are interested in seeing samples or would like to discuss things further, please do contact us.
